[Permit Chart - 12-18-2017Final.docx](#)

Hi Rob,

We have updated the spreadsheet. Please let me know if you need anything further.

Thanks.

Taim.

Subject: RE: Louisiana Offshore Oil Port (LOOP) - Oil Bi-Directional Proposal

PRIVILEGED AND CONFIDENTIAL

PRE-DECISIONAL; DO NOT RELEASE UNDER FOIA

Dear Agency Representatives,

This is a follow-up to the interagency call on December 7, 2017, regarding the pending LOOP Oil Bi-Directional proposal.

During the call, several agency representatives raised significant concerns regarding:

1. The sufficiency of the Environmental Assessment submitted with LOOP's proposal to U.S. Coast Guard in November 2017;
2. The incomplete listing of Federal and State permits required for the current operation of the LOOP facility;
3. LOOP's assertion that it is not required to obtain a permit for air emissions from its marine terminal under Title V of the Clean Air Act and that LOOP's operations at its offshore facility are regulated under the Department of Interior's Outer Continental Shelf air quality program;
4. The ongoing dispute over environmental monitoring requirements at outfalls regulated pursuant to LOOP's NPDES permit;
5. LOOP's lack of notice of the proposed oil export operational changes to the regulatory agencies under LOOP's current permits;
6. PHMSA's outstanding requests for information to LOOP pertaining to pipeline modification and surge protection necessary for the Oil Export proposal; and
7. Obligations regarding any threatened or endangered species and/or marine mammals in the area of LOOP's facility.

Please be advised that the Maritime Administration is conducting due diligence to ensure that LOOP maintains full compliance with the provisions of its deepwater port license for the operation of its facility. As such, MARAD hereby requests written confirmation from each of your agencies on the status of all Federal permits your respective agencies require for onshore and offshore operations of LOOP's deepwater port facility, and any obligations under the Endangered Species Act or Marine Mammal Protection Act in regard to LOOP's current operations and its pending Oil Bi-Directional proposal.

We ask that your responses include the relevant authorizing law(s) for which your agency maintains jurisdiction, the dates of permit issuance and expiration, and the status of any related pending permitting actions. For this purpose, attached is a chart for you to complete and return to MARAD for review.

We would greatly appreciate your prompt responses by December 29, 2017.

Should you have any questions or concerns regarding this request, please feel free to

contact Ms. Yvette Fields, Director, Office of Deepwater Ports and Port Conveyance at 202-366-0926 or by email at Yvette.fields@dot.gov.

Regards,

Yvette M. Fields

~~*~*~*~*~*~*~*~*

Good afternoon All,

Recently, I asked LOOP to provide supplemental information on their main oil line conversion Environmental Impact Assessment. Attached is LOOP's response (with attachments). While I encourage all to review before our call on Thursday, I am particularly interested in EPA's and BSEE/BOEM's view regarding LOOP's conclusion that "EPA has no jurisdiction over the [offshore] terminal or operations which take place there." (See Air Emissions Regulatory Authority Determination.pdf, Page 1 – Summary of Conclusions).

Good afternoon All,

After some sorting out of schedules, it appears we have critical mass to hold a teleconference on the subject issue. Date: Thursday, December 7; Time: 1400 – 1500 Eastern/1300 – 1400 Central.

Attached is my original email with a brief list of agenda items and two attachments: 1) LOOP's Environmental Impact Analysis of the conversion of its main oil line to bi-directional flow, and 2) A LOOP prepared project description. Both documents should be considered to contain business confidential information and not be sent to other parties outside of your Agency. Determinations of releasability will be made by the Coast Guard in consultation with LOOP. Please feel free to forward this invitation to others in your Agency who may have an interest.

Call-in information: (202) 475-4000

Passcode: 56155997#

I will energize the circuit five minutes before the start time.

All the best,

Curtis Borland
